TERMINAL DISCLAIMER TO OBVIATE A DOUBLE PATENTING REJECTION

Sir:

I, Robert M. Barrett, an attorney of record, do hereby state that Nestec S.A. is the owner of the entire right, title and interest of any patent granted on U.S. Application Serial No. 10/182,854. The terminal part of any patent granted on U.S. Application Serial No. 09/774,814 which would extend beyond the expiration date of any patent granted on U.S. Application Serial No. 10/182,854 is hereby disclaimed and it is hereby agreed that any patent so granted on the above-identified U.S. Application Serial No. 09/774,814 shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title of any patent granted on U.S. Application Serial No. 10/182,854, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.

The evidentiary documents have been reviewed and it is hereby certified that to the best of my knowledge and belief that title to the above-identified patent application is in the name of Nestec S.A.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. § 154 to § 156 and § 173 of any patent granted on U.S. Application Serial No. 10/182,854, as presently shortened by any terminal disclaimer, in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally
